MEDIA KIT

NEW HAL LOGO GUIDELINES

We've simplified our exisiting logo. When using the logo, please make sure it is on a white, or light gray background. If a white or light gray background is not possible, and the logo must be used on a dark background, then please use the alternate white and red logo below. Always be sure to leave enough white space around the logo. Please do not stretch or squish the logo in any way.

If you have any questions about the use of our logo, or if you would like the file in another format, please reach out to us at contact@halind.com, or by phone at 604-888-0777.
